# Stripping without chemicals

## Maroon Chemical Free Stripping pad

**The Wecoline Maroon Chemical Free Stripping pad allows you to strip floors – often in just one application – using nothing but water (or dry). Amazing results without chemicals!**

- no chemicals required
- use only water (or dry)
- a safe stripping method
- lower labour and material costs
- eco-friendly and economical stripping

## Eco-friendly stripping was never so easy!

The Maroon Chemical Free Stripping pad is specifically designed to remove floor finish with only water using either a single disc machine or an auto scrubber. Aggressive chemicals are no longer required. This offers numerous advantages: no more waiting, fewer application mistakes, safer for employees and better for the environment. Stripping floors in an environmentally-responsible way was never so easy or economical.

### Our philosophy

Wecoline is always on the lookout for innovations and developments that make the use of cleaning materials as simple as possible while keeping one eye on the environment. The Maroon Chemical Free Stripping pad is a great example of this approach.

- the pads use no chemicals
- often, only one pass is needed
- the packaging for the pads is made from 100% recycled and oxygen bleached card
- clear labelling including short instructions for use
- E-learning programme for floor cleaning for optimum results
