# Floor cleaning and maintenance with only water

The solution for environmentally conscious floor maintenance

Brilliant floor pads with a top layer of diamonds for stripping, cleaning and polishing with only water. A surprising result without chemistry!

- > EXCELLENT RESULTS
- > ENVIRONMENTALLY FRIENDLY
- > SAFE IN APPLICATION AND USE
- > COST SAVING
- > SUITABLE FOR ALMOST ALL FLOORS

### Working method for marble natural stone and marble composite tiles

Use the upgrade pad #1 for (deep) cleaning. The result is a clean and open floor surface. Then use the upgrade pad #2 for closing the floor surface with light cleaning. The cleaning pad makes the floor shine and close for 100%. The cleaning pad is also the pad to use for maintaining a marble floor.

Upgrade pad #1

### Working method for marmoleum (lino)

For stripping, use the strip pad #0. A protective layer can be applied immediately after stripping. For cleaning, keeping the floor closed, maintenance and maintaining the gloss of floors with a protective coating, use the cleaning pad daily or weekly with a single-disc machine or scrubber. The cleaning pad can also be used dry with a high-speed or ultra high-speed machine. The result is a shiny but slip-resistant floor.
